

Mr. James W. O'Neill

**Vice President/
GM Integrated Logistics, Global Services & Support
The Boeing Company**

James W. (Jim) O'Neill is vice president and general manager of Boeing Integrated Defense Systems' Integrated Logistics business. In this role, he has profit and loss responsibility for the Boeing effort to provide readiness and after-delivery support for military platforms and systems through performance based logistics contracts, leveraging innovative supply-chain management, industry-leading engineering services and public/private partnerships.

Key programs include the F/A-18E/F Super Hornet fighter, C-17 Globemaster airlifter, AH-64 Apache helicopter, CH-47 Chinook helicopter, and other Boeing military platforms.

Before this, O'Neill served as vice president and program manager of Boeing Tanker Programs since July 2004. He was responsible for sales, development, production and support of Tanker Programs. Boeing introduced the world's most advanced aerial-refueling tanker – the KC-767 – under his leadership.

Prior to this, he served as the deputy program manager for Tanker Programs, after serving as vice president and deputy director of the Comanche helicopter program. From March 2001 until January 2004, he was general manager of Naval Weapons, with program management responsibility for SLAM-ER, Harpoon and target missile systems in St. Louis. He also worked in Seattle as chief engineer and air vehicle director for the Joint Strike Fighter program.

O'Neill began his career with Boeing in 1982 as a structural engineer on the F/A-18 Hornet program. He worked on several aircraft and research programs for ten years before rejoining the F/A-18 program as an Integrated Product Team leader on the F/A-18E/F development program. He held various management jobs on the F/A-18, with his last assignment being air vehicle manager.

O'Neill attended the University of Missouri and graduated with a bachelor's degree and a master's degree in civil engineering. He also has an EMBA from the University of Washington. He presently serves as vice chairperson on the board of directors for the Youth In Need charitable organization.
